

Education - Erasmus plus Project: the High School "don Lorenzo Milani" *on the road* to Germany.

Training for students and teachers of the High School "don Lorenzo Milani" of Gragnano - In March also students from Poland and Slovenia in our town

10th November, 2017

Groups of students and teachers from the High School "don Lorenzo Milani" of Gragnano will shortly move to Germany, Poland and Slovenia. That is one of the points of the project agreement Erasmus Plus KA2, promoted by the High School "don Lorenzo Milani"

On 8th November representatives from Germany, Poland and Slovenia were welcomed to Gragnano in the presence of the Mayor Paolo Cimmino and Sara Elefante, City Councillor for social policies.

On 1st December the group of our students and teachers is leaving for Germany for the first mobility whereas in March, groups from Germany, Poland and Slovenia are coming to Gragnano, the European Capital of Pasta, for the second mobility.

Other mobilities have been planned throughout next school year 2018/19

The title of the project is ***Speak up, even if your voice shakes.***

During the stay students must put the foreign partner up at their place so as to improve their speaking skills and, at the same time, learn from each other.

The cultural exchange, thus, will be actually mutually enriching.
